SUMMARY

Detail-oriented computer science student with a strong foundation in software development, database systems, and data analytics. Experienced in designing and developing database-driven applications using Java and Python, with expertise in SQL and PL/SQL for database development and analysis. Proficient in Oracle and MySQL database technologies. Passionate about building scalable applications, solving complex technical challenges, and delivering impactful software solutions.

EXPERIENCE

Industry Project Intern

Feb '26 — May '26

Tata Consultancy Services

- Leveraged SQL/PL/SQL to analyze retail sales data, uncovering key trends to guide business strategy.
- Optimized database queries to streamline data extraction, enhancing accuracy and minimizing manual effort.
- Developed executive dashboards that translated complex datasets into actionable stakeholder recommendations.
- Standardized reporting procedures and documented workflows to improve operational efficiency.

SKILLS

Data & Databases: SQL/PL-SQL, Oracle, MySQL, Data Modeling, Data Visualization

Programming Python, Java, C++, Object-Oriented Programming (OOP)

Tools & Workflows Git, Oracle Database Explorer, Sales Order Management, Agile

PROJECTS

Oracle E-Commerce Order Management System

- Architected an Oracle-based backend to manage e-commerce orders, inventory, and secure transactions.
- Implemented SQL/PL-SQL procedures to guarantee data integrity and reliable order processing.

Student Management System

- Engineered an OOP-based application to centralize student records, enrollments, and grades.
- Optimized CRUD database operations to enhance query speed and record accuracy.

EDUCATION

Bachelor of Science - BS, Computer Science in Computer Science, Vishwakarma

University - VU

Jul '24 — Present

CERTIFICATIONS

Sales Order Management in Supply Chain Management, Tata Consultancy Services

Oracle Database Explorer, Oracle
